

AIR THAT CARES

UniBlaze Air Coolers – Range of Powerful Cooling,
Comfort & Freshness

AIR COOLER

BEAT THE HEAT, ANYWHERE.

Summer's extremes spare no one — from the scorching, dry plains to the humid, heavy coastlines. Blaze Air Coolers are designed to bring refreshing relief across every climate and geography. With powerful air delivery, large water tanks for lasting cooling, and the advanced Chill Trap Technology for maximum efficiency, Blaze makes comfort effortless. Built with mobility in mind, our coolers feature smooth castor wheels so freshness can follow you anywhere.

Discover the Blaze Air Cooler range, engineered to keep you cool, comfortable, and carefree, no matter how harsh the summer gets.

WHY CHOOSE AN AIR COOLER OVER AN AIR CONDITIONER?

BETTER AIR QUALITY

Air coolers pull in fresh air, unlike ACs that recirculate the same air. They don't dry out the air and are better for people with asthma or dust allergies.

COST EFFECTIVE

Air coolers cost far less than ACs—both to buy and to run. They use up to 80% less electricity, making them highly economical.

ECO FRIENDLY

Coolers use water as a refrigerant, unlike ACs that use harmful CFCs and HFCs. They're a greener choice for the planet.

EASY & PORTABLE

No complex installation needed—just plug and use. Many coolers have castors, so you can move them easily from room to room.

MODERN FEATURES

Today's coolers offer remote control, silent operation, multiple speed settings, and sleek designs to match your interiors.
